

Rapid Fire

Maternal mortality due to cardiovascular disease in the Netherlands: a 21years' experience

Heleen Lameijer
Joke M. Schutte
Jos J.M. van Roosmalen
Petronella G. Pieper

Lesson 1

Pre-conception counseling is important

Also in healthy women

Lesson 2

Take chest pain seriously

Think about IHD and AO dissection

Lesson 3

Monitor pregnant women with heart disease closely

Cardiomyopathy and PHV

Lesson 4

It is not over UNTILL it is over

Post partum period

Lesson 5

It is not over WHEN it is over

SUDS/SADS and autopsy

the

Lessons

1. Pre-conception counseling is important: healthy women with a family history
2. Take chest pain seriously: AO dissection and IHD
3. Monitor women with heart disease closely: Cardiomyopathy and PHV
4. It is not over UNTIL it is over: the post partum period is vulnerable
5. It is not over WHEN it is over: SUDS/SADS and autopsy
